
Probability density of the impact latitude on the 7th arc. Thin grey line: satellite communication and flight data only. Dashed line: with the drift evidence of the nine finds, as first scored (finds window to 30 January 2017, three detection periods, six find coasts). Thick line: with the drift evidence of twelve items on all western Indian Ocean coasts and four detection periods. Dotted line: the same, with no finds on Australian coasts (detection on populated Australian coasts 0.25 of that on the find coasts). Means: 36.72 degrees south (data only), 36.05, 35.90 and 35.00 degrees south.
