

Conditional geometry of the two Kadri Table 1 times and the screened H08S times

H01W Table 1: 00:49:58 UTC, bearing 260.41°
blue: bearing band; dashed: H08S range-difference timing bands

H01W Table 1: 00:53:31 UTC, bearing 257.58°
blue: bearing band; dashed: H08S range-difference timing bands

— integrated PDF 50/90/99% contours
 — seventh BTO arc
 H01W bearing $\pm 3.3^\circ$ control (inner line $\pm 0.5^\circ$)
 — pair to H08S 01:03:13.15
 — pair to H08S 01:12:49.50 bearing n timing band

Underlay: independent flight + BTO/BFO/received-power + terminal-flight + drift PDF. Pairings are post-hoc controls; both H08S times occur in Kadri's periodic airgun panels.
