

MH370 seabed-search evidence atlas

Official source geometry, reported-but-unplotted totals, and explicitly graded contextual reconstructions · snapshot 31 August 2026

Area evidence

Mapped geometry and reported totals are shown separately; overlapping catalog areas are not summed.

PHASE 2 · OFFICIAL

Deep Tow 130,961 km² catalog
Dong Hai Jiu 46,884 km² catalog
GO Phoenix 82,606 km² catalog
(overlap and geometry semantics differ)

BLUEFIN · OFFICIAL DISPLAY

771.410 km² plotted polygons
860 km² reported total
88.590 km² not represented by display-area arithmetic
(exact mission swaths unresolved)

OCEAN INFINITY 2018

>112,000 km² reported by contract end
120,000 km² later dataset context
148,993 km² approximate outline support
(exact AUV swaths unplotted)

OCEAN INFINITY 2025-2026

15,000 km² estimated contract area
7,571 km² approximately surveyed
7,429 km² arithmetic remainder
(exact surveyed and remainder polygons unplotted)

**Interpretation: context supports planning sensitivity only.
No searched/not-searched mask; no calibrated PoD.**
